DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6 are allowed.
2. The following is an examiner's statement of reasons for allowance: There is no evidence in the prior art searched of an FTIR system as claimed, namely, that the chamber that includes the optical element with deliquescence property also contains the cooling portion of a drying unit that is attached to the chamber, whereby the cooling portion condenses the moisture in the chamber and the heating portion of the drying unit that is provided outside of the chamber discharges the moisture. Prior art references such as JP 10-253454 discloses an FTIR with the claimed optical element in a chamber, as well as a drying unit attached to the chamber, however it fails to disclose a cooling portion of the drying unit for condensing moisture positioned inside the chamber. It would not be obvious to modify this prior art arrangement to obtain the claimed FTIR system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
